These numbers represent the very cheapest yurt available in a given size. Standard features and specs differ from company to company, as well as the price of add-ons—it's necessary to consider wall height, insulation options, doors, windows, etc. that apply to your particular needs. Lucky for you, this information is on following slides. (Prices as of Feb. 2018)

***Rainier makes two distinct models—only one model has the 33' option; the other prices here are for sizes of the cheaper model*

*** Shelter Designs also makes two models—the prices here are for the cheaper model*
